

THE FIELDS INSTITUTE

# GUELPH Biomathematics AND Biostatistics SYMPOSIUM

THE MATHEMATICS AND STATISTICS OF FOOD SAFETY

May 2, 2014 • Arboretum Auditorium • University of Guelph

## KEYNOTE SPEAKERS

Aamir Fazil (Guelph)

Jianhong Wu (York)

## INVITED SPEAKERS

Amy Greer (Guelph)

Kate Thomas (Guelph)

Keith Warriner (Guelph)

Mike Williams (Fort Collins)

## ORGANIZING COMMITTEE

Julie Horrocks (Guelph)

Allan Willms (Guelph)

Food safety is an area of enormous concern, both in the developed and the developing world. The focus of the symposium will be on the role of mathematics and statistics in food safety. The symposium will provide an opportunity for food safety scientists and regulators to interface with mathematicians and statisticians, to share different approaches to the problems of food safety and to identify open problems.

There will be a poster session for graduate and undergraduate students, with a prize awarded for the best poster.

Students and PDF are welcome to apply for travel support on the Workshop webpage. Deadline to apply is April 24.
