**THE FIELDS INSTITUTE FOR RESEARCH IN MATHEMATICAL SCIENCES**

**SEMINAR SERIES ON CONTROL THEORY**

**SPEAKER:**

**WILLEM SLUIS**  
**The Fields Institute**

On the Topic:

**"Absolute Equivalents of Differential Systems"**

Absolute equivalence is a notion introduced by E. Cartan, in 1914, that generalizes equivalences between differential equations by means of coordinate transformations. In this talk I review Cartan's original results.
